

US Patents

Thompson, V.S., W.A. Apel, J.A. Lacey, B.D. Lee, D.W. Reed, F.F. Roberto, and D.N. Thompson, 2020. Thermophilic and thermoacidophilic metabolism genes and enzymes from *Alicyclobacillus acidocaldarius* and related organisms, methods. United States Patent No. 10,689,838 B2.

Thompson, V.S., W.A. Apel, J.A. Lacey, B.D. Lee, D.W. Reed, F.F. Roberto, and D.N. Thompson, 2019. Thermophilic and thermoacidophilic metabolism genes and enzymes from *Alicyclobacillus acidocaldarius* and related organisms, methods. United States Patent No. 10,494,624 B2.

Thompson, V.S., W.A. Apel, J.A. Lacey, B.D. Lee, D.W. Reed, F.F. Roberto, and D.N. Thompson, 2018. Thermophilic and thermoacidophilic metabolism genes and enzymes from *Alicyclobacillus acidocaldarius* and related organisms, methods. United States Patent No. 9,879,247 B2.

Thompson, V.S., W.A. Apel, D.W. Reed, B.D. Lee, D.N. Thompson, F.F. Roberto, and J.A. Lacey, 2015. Thermophilic and thermoacidophilic metabolism genes and enzymes from *Alicyclobacillus acidocaldarius* and related organisms, methods. United States Patent No. 9,222,094 B2.

Thompson, V.S., W.A. Apel, D.W. Reed, B.D. Lee, D.N. Thompson, F.F. Roberto, and J.A. Lacey, 2014. Thermophilic and thermoacidophilic metabolism genes and enzymes from *Alicyclobacillus acidocaldarius* and related organisms, methods. United States Patent No. 8,728,803 B2.

Silverman, H.G. and F.F. Roberto, 2006. Cloning and expression of recombinant adhesive protein Mefp-2 of the Blue Mussel, *Mytilus edulis*. United States Patent No. 6,995,012 B1.

Silverman, H.G. and F.F. Roberto, 2006. Cloning and expression of recombinant adhesive protein Mefp-1 of the Blue Mussel, *Mytilus edulis*. United States Patent No. 6,987,170 B1.

Clark, T.R., and F.F. Roberto, 2003. Microbial production of epoxides. United States Patent No. 6,576,449 B2.

Radtke, C.W. and F.F. Roberto, 2000. Method for the decontamination of soil containing solid organic explosives therein. United States Patent No. 6,051,420.
